PROFESSIONAL EXPERIENCE

The Infused | Klaviyo Specialist | 2025–2026
Remote

- Build, configure, and optimize Klaviyo flows such as welcome series, browse abandonment, cart and checkout abandonment, post-purchase, winback, and customer retention journeys.
- Plan and strategize email campaigns around promotions, product launches, seasonal moments, and customer lifecycle goals.
- Develop campaign calendars and coordinate messaging, timing, audience targeting, and campaign priorities.
- Write conversion-focused email copy, including subject lines, preview text, headlines, body copy, and calls to action.
- Design branded email layouts in Figma and translate creative concepts into email campaigns.
- Integrate and troubleshoot apps and data connections to support customer segmentation, personalization, loyalty messaging, and automated flows.
- Build and refine segments based on engagement, purchase behavior, and customer lifecycle stage.
- Review campaign and flow performance, including deliverability, opens, clicks, conversions, and revenue opportunities, and recommend improvements.
- Support A/B testing, list hygiene, and email best practices to improve engagement and maintain list health.

Home Painting Geelong | E-commerce & Digital Marketing Specialist | 2024–2025
Remote

- Managed Shopify stores, product listings, and inventory.
- Created graphics, edited videos, and produced engaging marketing content.
- Ran Facebook ad campaigns to drive traffic and sales.
- Developed and maintained WordPress websites with SEO.
- Managed social media to strengthen brand presence and engagement.

Embeholdings | Shopify Store Manager | 2023–2024
Remote

- Customized Shopify themes and supported storefront development.
- Managed email, referral, and affiliate campaigns.
- Integrated third-party apps and plugins.
- Optimized checkout experience, mobile responsiveness, and site speed.
- Managed social media platforms to improve brand visibility and engagement.

Confident Health | Shopify Store Manager | 2022–2023

Remote

- Built, maintained, and managed Shopify storefronts, including theme configuration, page layouts, navigation, and product pages.
- Managed product listings, collections, pricing, product information, inventory, and merchandising updates.
- Customized Shopify themes and storefront sections to support brand consistency, usability, and conversion goals.
- Managed day-to-day Shopify operations, including app and plugin integrations, store settings, checkout experience, and troubleshooting.
- Supported paid advertising and promotional activities to drive qualified traffic, product discovery, and sales.
- Optimized storefront user experience, mobile responsiveness, page speed, and purchase pathways.
- Coordinated marketing assets, landing pages, offers, and product content across store and campaign touchpoints.
- Monitored store performance and identified opportunities to improve product presentation, customer experience, and conversion.

Hundredfolds | Workflow Automation & CRM Specialist | 2021–2022

Remote

- Built and optimized GoHighLevel workflows for lead intake, contact management, pipeline updates, appointment reminders, and follow-up sequences.
- Created multi-step automations in Zapier and Make.com to move information between forms, CRMs, spreadsheets, email platforms, and team communication tools.
- Used webhooks and API-based connections to pass data between applications, standardize field mapping, and reduce manual data entry.
- Supported AI-enabled workflows for lead qualification, FAQ response assistance, content processing, and routing inquiries to the appropriate team.
- Set up automated email and SMS touchpoints, internal alerts, task assignments, and customer onboarding sequences.
- Performed end-to-end testing, resolved integration issues, and refined workflows based on business requirements and user feedback.

Ecoms Flow Builder Company | Klaviyo Flow Builder | 2020–2021

Remote

- Built and maintained automated email flows in Klaviyo based on customer actions, lifecycle stages, and business objectives.
- Configured triggers, flow filters, conditional splits, time delays, and profile-property logic to deliver relevant messages.
- Set up and troubleshot app integrations and event syncing so customer and order data could support segmentation and automation.
- Supported core flows such as welcome, abandoned cart, checkout abandonment, browse abandonment, post-purchase, and winback.
- Assisted with audience segmentation, personalization, dynamic content, and targeted messaging.
- QA'd flow logic, links, email rendering, and timing before launch; monitored skipped profiles and troubleshot flow behavior.
- Used campaign and flow performance data to identify opportunities to improve engagement and conversions.

StoneSystem | GoHighLevel (GHL) Expert | 2019–2020

Remote

- Built landing pages and optimized websites.
- Created automation workflows to streamline tasks.
- Managed email marketing campaigns for engagement and conversion.
- Developed lead generation strategies to support sales.

Realtor Web Builder | Web Builder & Social Media Manager | 2018–2019

Remote

- Created social content for Facebook, Instagram, LinkedIn, and TikTok.
- Supported lead generation and created website wireframes.
- Wrote and published blog content on client websites.
- Researched realtor information and organized records in Airtable.

SELECTED AUTOMATION WORK

- Lead Capture & CRM Pipeline Automation: Connected website forms and lead sources to GoHighLevel, applied lead tagging and assignment rules, and triggered timely email/SMS follow-ups.
- Appointment Booking & Reminder Workflows: Connected calendars and CRM records to automate booking confirmations, reminders, rescheduling updates, and internal notifications.
- AI-Assisted Inquiry & Lead Qualification: Used AI prompts and workflow logic to classify incoming inquiries, summarize customer details, and route qualified leads for team follow-up.
- Cross-Platform API & Webhook Integration: Connected business applications using REST API requests and webhooks, including field mapping, data synchronization, and workflow testing.
- E-commerce Customer Lifecycle Automation: Supported automated customer journeys across Shopify and Klaviyo, including welcome, abandoned cart, post-purchase, retention, and winback communications.
